

THE UNIVERSITY OF
WINNIPEG
ENVIRONMENTAL STUDIES PROGRAM

14 September 2010

Dr. Laura Cooper
Dean of Instruction, University Studies
College of the Rockies
2700 College Way, Box 8500
Cranbrook B.C. V1C 5L7

Dear Dr. Cooper

Thank you for your letter addressed to Dr. Rod Hanley, Dean of Science regarding a block transfer agreement for the students of your institute completing the Environmental Studies certificate who would like to transfer into the Environmental Studies Program at the University of Winnipeg.

The Environmental Studies curriculum committee reviewed the certificate program and the courses offered by your college and decided on the following:

1. The students who have successfully completed the Environmental Studies Certificate program from the College of the Rockies could get up to 30 credits of 1000 level courses when they transfer to the University of Winnipeg Environmental Studies Program.
2. However if they have not taken an equivalent 1000 level course required for the stream they have selected in the Environmental Studies Program, they will have to take it at the University of Winnipeg.

Please contact me at 1-204-258-2994 or email d.kumaragamage@uwinnipeg.ca if you need any clarifications.

Sincerely,

Dr. Darshani Kumaragamage
Director/ Environmental Studies Program
