

Heavy Duty Equipment Technician Apprenticeship Level 2 – HDT2

Trades Training

Program Outline

PROGRAM IMPLEMENTATION DATE: September 2003
OUTLINE EFFECTIVE DATE: April 2019
PROGRAM OUTLINE REVIEW DATE: September 2024

GENERAL PROGRAM DESCRIPTION:

This 8-week program delivers the technical training required for Level 2 of the four-level Heavy Duty Equipment Technician Apprenticeship program. Apprentices will develop knowledge and practical skills related to describing engine fundamentals, alternate fuel systems, and diesel fuel injection fundamentals, diagnosing and repairing electrical systems, engines support systems, diesel supply systems, mechanical fuel injection systems, electronic diesel fuel systems, and diesel emissions systems and engine brakes, as well as diagnosing and removing engines and components. This program includes classroom theory, demonstrations and practical hands-on training in a heavy-duty mechanic shop setting. Safe work practices related to the heavy-duty equipment trade are reinforced throughout the program.

Credential Granted: Upon successful completion of the 8-week Level 2 Heavy Duty Equipment Technician program, students receive:

- Level 2 Technical Training credit of the Heavy Duty Equipment Technician Apprenticeship program from the Industry Training Authority.

Delivery: This program is delivered face to face as a block intake.

Time for this program: 8 weeks

Typical Structure of Instructional Hours:

Instructional Activity	Duration
Theory based training (approximately per day)	50%
Practical shop floor training (approximately per day)	50%
Trades Contact Hours	28 hr/wk

Practicum Hours (if applicable):

Type of Practicum	Duration
On-the-job Experience	N/A
Formal Work Experience	N/A
Other	N/A
Total

Education Council Approval Date

PROGRAM PREREQUISITES AND TRANSFER CREDIT:

Prerequisites: Sponsored Heavy Duty Equipment Technician apprentice who has successfully completed Level 1 Heavy Duty Equipment Technician technical training or Heavy Mechanical Foundation program.

Credit can be awarded for this program through FA Yes No

Prior Learning Credit: Apprentices that have extensive work experience in a trade (in BC or elsewhere) but have never been certified must apply through the Industry Training Authority (ITA) to challenge the certification for advanced placement in a program. Refer to the ITA website (<http://www.itabc.ca/apply-apprenticeship/challenging-exams>) for details regarding the challenge procedure. Trade specific requirements can be found for each trade in the Trades Program Profiles on the ITA website.

Prior Course Number: N/A

Textbooks and Required Resources:

Textbook selection varies by instructor and may change from year to year. At the Program Outline Effective Date the following textbooks were in use (most current edition):

HD – Level 2: COTR Custom Package 2016. Queen’s Printer.

Please see the instructor's syllabus or check COTR's online text calculator

http://www.cotr.bc.ca/bookstore/cotr_web.asp?IDNumber=164 for a complete list of the currently required textbooks.

PROGRAM DESIGN:

Apprenticeship programs cover the general area competencies (GAC) for the program as sourced from curriculum documents provided by Industry Training Authority (ITA). The Technical Training Topics are listed under the Technical Training Content section of this document, and related competencies are listed under the Program Competencies section. College of the Rockies is accredited by ITA to deliver apprenticeship programs.

TECHNICAL TRAINING CONTENT:

HDAP 210

Electrical

- Diagnose and Repair Charging Systems
- Diagnose and Repair Starting Systems
- Diagnose and Repair Electrical Components and Systems
- Diagnose and Repair Electronic Components and Systems
- Diagnose and Repair Vehicle Management Systems

HDAP 211

Engines and Supporting Systems

- Describe Engine Fundamentals
 - Diagnose and Repair Engine Support Systems
 - Diagnose and Repair Diesel Supply Systems
 - Describe Alternative Fuel Systems
 - Diagnose Engines and Components
 - Remove Engines and Components
 - Describe Diesel Fuel Injection Fundamentals
 - Diagnose and Repair Mechanical Fuel Injection Systems
 - Diagnose and Repair Electronic Diesel Fuel Systems
 - Diagnose and Repair Diesel Emissions Systems
 - Diagnose and Repair Engine Brakes
-

PROGRAM COMPETENCIES:

Upon the successful completion of this program, students will be able to:

- diagnose and repair charging systems;
- diagnose and repair starting systems;
- diagnose and repair electrical components and systems;
- diagnose and repair electronic components and systems;
- diagnose and repair vehicle management systems;
- describe engine fundamentals;
- diagnose and repair engine support systems;
- diagnose and repair diesel supply systems;
- describe alternative fuel systems;
- diagnose engines and components;
- remove engines and components;
- describe diesel fuel injection fundamentals;
- diagnose and repair mechanical fuel injection systems;
- diagnose and repair electronic diesel fuel systems;
- diagnose and repair diesel emissions systems; and
- diagnose and repair engine brakes.

See instructor’s syllabus for the detailed outline of weekly readings, activities and assignments.

EVALUATION AND ASSESSMENT:

Assignments	% Of Total Grade
Theory	50%
Practical	<u>50%</u>
Total	100%

Students must maintain an acceptable level of attendance (as described in the College Policies and Procedures), complete all assigned projects and pass all exams to successfully complete Level 2 of the Heavy Duty Equipment Technician program.

Passing Grade – Final overall mark minimum is 70%

Note: When the apprentice completes the program the instructor will report evaluation results to the Industry Training Authority.

HEAVY DUTY EQUIPMENT TECHNICIAN APPRENTICESHIP LEVEL 2			
COTR COURSE	SUBJECT COMPETENCIES	THEORY WEIGHTING	PRACTICAL WEIGHTING
HDAP 210	Electrical	40%	40%
HDAP 211	Engines and Supporting Systems	60%	60%
	Total	100%	100%
In-school theory/practical subject competency weighting		50%	50%
Final In-school percentage score		IN-SCHOOL%	

In-school Percentage Score Combined theory and practical subject competency multiplied by	80%
Standard Level Exam Percentage Score The exam score is multiplied by	20%
Final Percentage Score	FINAL%

STUDENT RESPONSIBILITY:

Students are expected to follow all College Policies and Practices as outlined in the program handout package. Mastery of trade specific techniques and methods necessary to a given trade requires significant supervised practice. As a result, regular attendance is necessary for success in this program. Students are expected to follow Policy 2.6.2 – "***Vocational Student Withdrawals as a Result of Absence***".

WorkSafeBC regulations apply to all trades programs. Students are expected to follow all safe work practices and have high regard for the safety of others as well as of themselves. Students are responsible to wear personal protective equipment (PPE) as directed. At a minimum, students must provide and wear approved safety footwear and eyewear at all times in the shop. Additional PPE may be required for specific tasks. Students are expected to wear clothing suitable for working safely in the shop.

The shop attendant is also the first aid attendant for the building. Students may only work in the shop during assigned times. If an incident occurs, no matter how minor, it must be reported to the shop attendant immediately.

INDUSTRY SITE VISITS:

There may be off-site field trips organized in the program as opportunity or resources are available during this program. Students **ARE REQUIRED** to arrange their own transportation for such field trips. Students are expected to follow all college policies and procedures when participating in off-campus activities.

STUDENTS MUST PROVIDE THEIR OWN:

- hi-vis coveralls
 - digital multimeter
 - safety glasses
 - coveralls
 - leather steel-toed boots
 - pens, pencils, coloured pencils, paper
 - calculator
 - Reference Manuals
-

EXAM POLICY:

Students must attend all required scheduled tests and exams that make up a final grade at the appointed time and place.

Individual instructors may accommodate for illness or personal crisis. Additional accommodation will not be made unless a written request is sent to and approved by the appropriate Department Head prior to the scheduled exam.

Any student who misses a scheduled test or exam without approval will be given a grade of "0" for the exam.

PROGRAM GRADE:

Program grades are assigned as follows:

COM	Completed to defined standard $\geq 70\%$
NCG	No Credit Granted $< 70\%$

Successful completion of the in-school training is defined as a final score of 70% or greater. (ITA website)

ACADEMIC POLICIES:

See www.cotr.bc.ca/policies for general college policies related to course activities, including grade appeals, cheating and plagiarism.

PROGRAM CHANGES:

Information contained in program outlines is correct at the time of publication. Content of the program is revised on an ongoing basis to ensure relevance to changing educational, employment, and marketing needs. The instructor endeavours to provide notice of changes to students as soon as possible. The instructor reserves the right to add material to programs.
